

Level 3 Cambridge Technical Introductory Diploma in IT

Exam Board: OCR

Course Structure:

The OCR IT Cambridge Technicals course runs for two years. Students complete six units over the two years. All six units are assessed through coursework. The qualification is graded at Pass, Merit and Distinction.

What will I study?

Mandatory Units

Communication and employability skills for IT: This unit will equip you to use a variety of communication skills, and provide you with an understanding of the skills an employer wants and how to adapt the message to their audience

Information systems: This unit demonstrates the types of information held in the workplace, how it can be used to gain a competitive edge and how it must comply with legislation

Optional Units

Website Production: A website can make or break a business; you will design, create and test a functioning website, including understanding architecture, design and security issues

Project Planning with IT: In this unit you will create project plans, undertake them and evaluate your success. This unit will provide you with a valuable transferable skill

E-commerce: In this unit you will gain knowledge of the technologies required to run an e-commerce system, the impact of e-commerce on organisations and society and you will plan an e-commerce strategy

Business Resources: In this unit you will look at how a range of resources including human, physical, technological and financial resources are used and managed within business

What can I do with Level 3 ICT?

Web Design

Business Administration

Games Tester

Business Management

Telecommunication

More than 90% of all new jobs require basic internet skills and 92% IT literacy

Desired entry requirements:

At least grade C in Maths and English Language. A Merit or above at level 2 in ICT.
